Clarkson College accepts transfer credits from OTech Inc. The articulation agreement shows how courses completed at OTech Inc. may be transferred to Clarkson College. It is important for students transferring credit to Clarkson College to submit an official proof of completing the OTech course certification exam(s), which has to be taken within a period of one year after the student takes a particular OTech course. Students must receive a minimal 70% pass rate on the exam, to be considered for transfer credit. Clarkson College does not accept transfer credit for courses taken after enrollment at Clarkson College and credits can be applied for a period of three years after the OTech certification exam date.

| OTech Inc. |                            |              | Clarkson College Courses |                              |              |
|------------|----------------------------|--------------|--------------------------|------------------------------|--------------|
| Course     | Description                | Credit Hours | Course(s)                | Description                  | Credit Hours |
| FP 401     | PACS System Administration | 6            | MI 446 and MI 447        | Imaging Informatics I and II | 6            |
|            |                            |              |                          |                              |              |
|            |                            |              |                          |                              |              |

The credits will apply to the following programs: Bachelor of Science in Medical Imaging, and a certificate in Imaging Informatics.
